

Check your employees for corona Transport

KEEP THE CORONAVIRUS OUT!

If you transport more than one employee per vehicle, ask each employee the following health-related questions before admitting them to the vehicle. Also write down who was transported with the vehicle. Keep this completed questionnaire for one month. The municipal health service may use it for contact tracing.

Ask your employee the following questions:

■ ***Did you suffer from one or more of these symptoms during the past 24 hours?***

- coughing
- cold symptoms
- temperature or fever
- tightness of the chest
- loss of smell and/or taste

- no
 yes

■ ***Does one of your household members currently have a fever and/or tightness of the chest?***

- no
 yes

■ ***Did you have the coronavirus and was this confirmed during the past seven days (in a lab)?***

- no
 yes

■ ***Do you have a family or household member who has the coronavirus? Were you in contact with him during the past 14 days while he had symptoms?***

- no
 yes

■ ***Are you in quarantine because you were in direct contact with a person who has been diagnosed with the coronavirus?***

- no
 yes
